

fi-6670/fi-6770

Color Duplex Document Scanners

Increase efficiency in production environments with advanced scanning intelligence and high reliability.

Designed with outstanding paper handling, fast scan speeds up to 90ppm/ 180ipm and intelligent productivity enhancement features, the Fujitsu fi-6670 and fi-6770 scanners deliver the automation and dependability needed for mission-critical production scanning applications. In addition, innovative features such as an intelligent multi-feed function drastically improves the batch scanning process by allowing the ultrasonic double-feed detection sensor to be trained to ignore intentional overlapping documents such as photos in insurance, patient label stickers in healthcare and tapedon receipts for accounting expense reports.

The fi-6x70 Series scanners come bundled with an assortment of valuable software tools and applications such as PaperStream Capture as well as PaperStream IP. PaperStream contributes to decreased deployment costs and improved interoperability with complimentary hardware and third party software solutions.

In keeping with the Fujitsu tradition, the fi-6x70 Series is the latest to adhere to the strictest of environmental regulations including Energy Star, Reduction of Hazardous Substances and Volatile Organic Compound to better our environment. Transform your paper documents into useful electronic data in a fl ash with the intelligent scanning features of the fi -6670 and fi -6770 production scanners.

Fleet Management.

Scanner Central Admin provides IT departments an efficient way to manage medium to large scanner deployments. With remotely accessible fleet information, IT departments can now allocate resources effectively based on scan volume, consumable wear, depreciation schedules and maintenance expiration.

Service and Support programs to fit your needs and budget.

The fi-6670 and fi-6770 scanners include a 90-day on-site, Limited Warranty. For full details on the Limited Warranty and on all service programs, go to www.lmagingService.com or call (800) 301-9475.

About Fujitsu Computer Products of America, Inc.

Fuiitsu Computer Products of America, Inc., a subsidiary of Fuiitsu Ltd., is an established leader in the Document Imaging industry, delivering innovative scanning solutions and services that enable our customers to solve critical business productivity issues and streamline operations. We provide cutting-edge document capture and workfl ow solutions for business and personal environments, backed by a comprehensive portfolio of service and support programs.

Technical Specifications						
Model		fi-6670 / fi-6770				
Document Feeding Mode		Automatic document feeder (ADF) & Flatbed ¹				
Technology			Charge coupled device (CCD) image sensor (x 2, fi-6670) (x 3, fi-6770)			
Output Monochrome Resolution (dpi) Grayscale and		50 to 600dni 1200dni 3
